

PRODUCT SHEET

COMMERCIAL GYROS GRILL GR 60 E

Specifications

Reference	GR 60 E
Dimensions	580 x 660 x 870 mm
Weight	31 Kgs
Power	5.8 KW
Voltage	380 V
Spit height	600 mm
Capacity (kg meat)	25 kg

Description

To cook the meat evenly, you can move the pilaster and heat source and regulate each zone to adjust the cooking to the height and diameter of the carrot-shaped piece of meat. The spit is easy to place with one hand only. The bottom plate is fully hermetic: the motor is protected from any infiltration of fat or juice of meat. Mounted on ball-bearings, it does neither bear the weight of the meat nor the user's strong handling: it is protected from any torsion. Fitted with a large stamped juice collector with a removable drip ray for an easy cleaning.

Features: on/off switch, pilot lights, 4 elements with independent regulation, half or full power and fire stones to accumulate the heat. Delivered without any option.

Made in France
